VW Group 2014 FE Guide -all rel dates-no-sales-9-16-2013.xlsx

Richard,

re: 2014 FE Guide - Errors in EPA's database on Sept 16, 2013

Richard, we found what we think is an error in the 2013 and 2014 Toaureg diesel indexes. Both are vehicle specific 5-cycle labels with what we think is an error in the unadjusted hwy and combined mpg values.

Attached are the data in Verify as of Sept 16, 2013 which were sent to DOE for posting on [www.fueleconomy.gov](http://www.fueleconomy.gov). Labels with pea green fill in the first few columns have errors which need to be corrected.

The next normal posting of 2014 FE Label data on [www.fueleconomy.gov](http://www.fueleconomy.gov) will be Oct 1, 2013. Additionally, on Sept 20, 2013 (tomorrow), I'll send the releasable data to DOE for posting on [www.fueleconomy.gov](http://www.fueleconomy.gov) which was error free as of September 16 and had release dates between Sept 18 and Sept 23, 2013.

If you need an important 2014 FE Label posted on the web before the next posting, please send me an email message and I'll be glad to have it posted earlier.

Please make any needed corrections to Verify when you get a chance.

Thanks
